**Subject:** MEETING REMINDER w location & call-in number -- SED for Phase I Delta WQCP

Hi Everyone,

I hope you all had lovely long weekends. I hope to see many of you today from 11:00 AM to 1:00 PM to discuss the San Joaquin River and tributary flow objectives & south Delta salinity objectives. I sent out a meeting invite last week after I found a date and time that worked for most people. Sadly, I missed some names from those who filled out the doodle poll (Patricia Brantley, Pat Brandes, Craig Anderson, & Leigh Bartoo) -- sorry about my error! I hope you can make it or call in even with the last minute notice for some of you.

Please feel free to bring your lunch with you and I also have snacks for those w/o lunch.

For those of you who cannot make it in person, here is the call-in number (thank you Monica!!).

Below is a draft meeting agenda -- we can modify as needed.

**Agenda:**

**I. Introductions**

**II. Technical discussion focused on San Joaquin River and tributary flow objectives**

- % unimpaired flows
- minimum flow objective at Vernalis
- adaptive management range
- ability of proposal to meet salmon doubling objectives and protect beneficial uses

III. Technical discussion focused on south Delta salinity objectives (this may be short if folks have not focused on this part yet)

IV. Agency perspectives regarding comment letters and workshop presentations
